

OVPAA-RDG Form 6.1
UP RESEARCH DISSEMINATION GRANT
Conference Report Form

1. Name (Last, First, Middle) SUBADE, RODELIO FERNANDEZ		
2. Department/Institute Division of Social Sciences	3. College College of Arts & Sciences	4. Constituent university UP Visayas
5. Title of research paper : Socio-Economic Conditions of Fishers In Selected Sites in Southern Guimaras Four Years after the 2006 M/T Solar1 Oil Spill		
6. Name/Title of conference/Inclusive dates and venue 10th Asian Fisheries and Aquaculture Forum, April 30-May 4, 2013, Yeosu, Korea		
7. Conference Report		
7.1 Write-up about the conference The Asian Fisheries and Aquaculture Forum is a tri-annual scientific conference of the Asian Fisheries Society, an organization of fisheries and aquaculture scientists, researchers and academicians across Asia and other countries. For this year's AFAP there were a total of 14 sessions, including the 4 th Global Symposium on Gender in Aquaculture and Fisheries (GAF4), and the 4 th International Symposium on Cage Aquaculture in Asia.		
7.2 Photocopy of the cover of the conference book, conference program and abstract of the presented paper (attached as Annex 1)		
7.3 Feedback on paper presented There were some feedback, among conference participants, one of such deals with comparing the experience of some Korean households who were also affected by an oil spill, some years ago		
7.4 Future directions of research presented The paper (and other co-authored papers) presented in this conference shall be improved and submitted for possible publication in peer reviewed journals, starting with Asian Fisheries Science, an ISI-listed journal		
7.5 Potential foreign collaborators: Researchers and scientists from Korea Institute for Ocean Science and Technology (KIOST), from some Indonesian (Universitas Depongoro) and Korean Universities		
7.6 Other important contacts and insights – see attached		
7.7 Short write-up of one's participation (to be used to feature/publicize the grantee's participation in the conference) -- see attached		
7.8 Photos of the conference (attach as Annex 2)		
8. Copies of travel documents (attach scanned copies)		
8.1 Certificate of attendance/participation (attach as Annex 3)		
8.2 Airline ticket (attach as Annex 4)		
8.3 Boarding passes (attach as Annex 5)		
9. Submitted by:		Endorsed by:
 Dr. Rodelio F. Subade Name & Signature of Grantee		 Dr. Rosalie Arcala-Hall Name & Signature of Chair/Director
 Dr. Ma. Luisa Mabunay Name & Signature of Dean		 Dr. Ricardo Babarang Name & Signature of Vice Chancellor for Research
10. Deadline for submission: The report should be emailed to research.ovpaa@gmail.com within one (1) month after the conference.		

7.6 Other important contacts and insights

The Asian Fisheries and Aquaculture Forum provides a good platform and venue for researchers across Asian sites to conceptualize and implement future cross-country studies that may be able to provide pertinent solutions to nagging problems in fisheries and aquatic resources. One option is for the Asian Fisheries Society to generate more donors for its graduate fellowship fund. That can serve as funding mechanisms for graduate research across countries addressing specific researchable problems.

7.7 Short write-up of one's participation (to be used to feature/publicize the grantee's participation in the conference)

UPV Professor Participates in the 10th Asian Fisheries and Aquaculture Forum

Dr. Rodelio F. Subade, professor in economics and UP Scientist 1 at the Division of Social Sciences, UP Visayas, participated in the 10th Asian Fisheries and Aquaculture Forum which was held in the Ocean Resort Hotel, Yeosu City, South Korea last May 1-3, 2013. This conference was attended by hundreds of scientists and researchers across many countries in Asia (Philippines, Japan, China, India, Malaysia, Indonesia, Vietnam, Cambodia, South Korea, Australia and others) and other parts of the world, despite the threats of war from North Korea during that time.

For his part, Dr. Subade presented his paper entitled, "Socio-Economic Conditions of Fishers In Selected Sites in Southern Guimaras Four Years after the 2006 M/T Solar1 Oil Spill", which was based from a study funded by the National Disaster coordinating council (presently NDRRMC). Korean participants in the session where he presented this paper shared experience and lessons from similar oil spill experience in Korea. The conference was a good venue for researchers and scientists to learn from each other and explore potential collaborative work in the future.

Travel expenses and support for Dr. Subade's participation was provided by the UP system Research Dissemination Grant and the UPV Research Dissemination Grant.
